#### **SUBSTANCE OF INTERVIEW**

On May 2, 2007, Applicants' representative, Ronald J. Schoenbaum, conducted an interview with Examiner Daniel Felten to discuss the current Office Action. During the meeting, Mr. Schoenbaum presented Examiner Felten with a proposed set of replacement claims. Mr. Schoenbaum also explained how these new claims address the rejection under section 112, second paragraph, and pointed out claim limitations that are not taught or suggested by Rose. With respect to the proposed independent method claim, Mr. Felten made some suggestions on how to more clearly distinguish Rose. No other claims, references or issues were discussed, no exhibits were presented, and no agreement was reached.
